Appendix 7. Interview Responses

Interview Responses – Kampung Inggris LC

1. Desyona Puspita Sari

Question 1:

Response:

"In my opinion, the explanations are delivered slowly and are easy to understand. From the beginning to the end, the material is presented in a logical sequence and does not suddenly jump to more difficult topics. The language used is also simple, which makes it easier for me to understand the content of the videos."

Question 2:

Response:

"It means that the presenter explains the material as if they were having a conversation with a friend, rather than giving a formal lecture. I feel more comfortable learning in that style because it feels more relaxed, which helps me focus better on understanding the material."

Question 3:

Response:

"The channel often provides examples of conversations that are closely related to everyday life, such as introducing yourself or talking with friends. These examples help me imagine when and how the expressions can be used. The video I remember the most was about daily conversations because, after watching it, I became more confident in using some English expressions in my daily conversations."

2. Alfa Redo Ananda Putra

Question 7:

Response:

"I said that I had to watch this channel because I was required to do so for a university assignment. The assignment required me to watch and study the learning materials provided by the channel."

Question 8:**Response:**

"If there were no requirement, I would probably still watch it occasionally, especially when I needed English learning materials. However, I do not think I would watch it as frequently as I did when I had assignments or academic requirements."

Question 9:**Response:**

"The material that I remember most easily is vocabulary and English expressions commonly used in everyday life. I think it is easy to remember because the explanations are simple, the examples are closely related to daily life, and I can immediately use them when speaking or communicating in English."

Question 10:**Response:**

"Although I started watching the channel because it was required, I actually enjoyed some parts of it. I became interested when I found materials that were relevant to my needs in learning English. So, although I initially watched it because I had to, I eventually realized that the channel was helpful and beneficial for me."

Interview Responses – Sluggish_Journey

1. Wenti Alfrin Siska

Question 14:**Response:**

"By flexible pacing, I mean that the lessons are presented slowly and step by step, giving me enough time to understand each explanation before moving on to the next topic."

Question 15: You mentioned that the content is "easy to memorize." Why?

Response:

"It is easier for me to remember because every explanation is immediately followed by a simple example. This helps me not only memorize grammar rules but also understand how to use them correctly."

Question 16:**Response:**

"In my opinion, this channel is not as widely used because it is not promoted as much as other channels. Many students are more familiar with Kampung Inggris LC or Klinik Inggris, so this channel receives less attention, even though I think its content is very good and easy to understand."

2. *Adinda Sisilia*

Question 17:**Response:**

"The most interesting part is the way the material is presented. The explanations are simple, clear, and supported by examples that are easy to understand. Because of this, I do not get bored easily and I can follow the lessons more comfortably."

Question 18:**Response:**

"The most important factor for me is the clear explanation. Once I understand the explanation, it becomes much easier for me to remember the grammar material and apply it when studying or answering exercises."

Question 19:**Response:**

"Yes, I had tried several other channels before. The difference is that some of those channels explained the material too quickly or used language that was more difficult to understand. In contrast, this channel provides simpler explanations, easier examples, and a clearer teaching style, which makes me feel more comfortable while learning."
