

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter present brief discussion about the conclusion and suggestion based on the finding of difficulty level of writing the procedure text.

5.1 Conclusion

In conclusion, the findings from both assessments indicates that the difficulty faced by Grade 8 students at Junior High School 21 Bengkulu City is at the difficult level this difficulty caused by generic structure and language features. While students demonstrated a medium level of understanding in the Goal and Language Features aspects. Other aspects such as Method, Equipment and Materials Used, and Spelling, Punctuation, and Grammar posed significant challenges. These results indicate a lack of understanding in providing detailed and accurate information, as well as weaknesses in fundamental writing skills.

5.2 Suggestion

The researcher would like to suggest:

1. For teachers

Solve students difficulties according to the level of difficulty.

2. Further researchers

This research can be used as a reference to conduct research related to procedural texts.
